14th October 2020

Dear Parents,

Following yesterday's government announcements and the designation of Wakefield as a high risk area we have reviewed our Covid-19 response and intend to take the following additional measures

On arrival students and staff entering the reception building will keep on their face coverings and after signing in go through to their session where the mask can be removed. During the day the vast majority of transit is outside or well ventilated spaces. Students and staff can chose to wear face coverings on site when going between sessions but this will not be compulsory. When leaving site the face covering will be put on before entering reception.

We will also need to restrict access to our residential provision further and visits, collections and departures will now be facilitated through reception. Please note that this will require the use of a face covering while inside.

The reception space and common areas in the office building will require the use of face coverings. This includes arrival for meetings. The meeting room can be use without face coverings as long as numbers are within limits and the seating plan is followed.

Thanks

William Taylor
Principal
