

Adverse weather

Once again the snow caused disruption this week, we had the extra challenge of a power cut, being lunchtime before we were re-connected. There is more snow forecast throughout next week. As you can appreciate it is difficult to predict and the forecast changes dependant on which service you use or the time that you check. Also a forecast of snow doesn't help us predict how heavy or if the conditions mean it will settle. It really is a case of checking outside of the window. We will endeavour to make early decisions on whether we feel it is safe to open to students or not on a day by day basis. You will be notified by text as early as possible. If you have changed number, please let us know so that we can ensure our details are up to date.

Home learning

Thank you to those who are participating in home learning. We have seen some fantastic photos of students work. We will continue to send packs out. We are sending printed packs as we know you may not have printers or ink. If you would prefer them in another format please let us know. We also welcome feedback on the packs.

We are working on a student portal that students will be able to access from home, we will let you know when this is available.

Dates for Half Term

We'd like to remind you that we break up for half term on Friday 12th February.

Day students will return on Wednesday 24th February for those that are currently attending.

For residential students, please contact the House Manager to arrange collection and return times as appropriate.

Many thanks for your continued support and stay safe.
